

# Certificate of Completion

## *Stanislavs Gendelis*

has completed training courses for:

### Level 1: The Science of Air Leakage in Buildings

Stanislavs Gendelis has passed a 51 question exam with a mark over 85% on how the building science behind house and duct leakage affects energy conservation, air quality, building integrity and building safety.

### Level 2: Residential Air Leakage Measurement Equipment

Stanislavs Gendelis has passed a 56 question exam with a mark over 85%, demonstrated calculation skills and the ability to run a single fan air leakage test system on a building. Lessons include training on pressure gauges, door fan operation, instrument set up, fan speed control and pressure zone testing in residential houses plus duct testing.
